Highlights

Vaccination drive scheduled in the month of August

Prof. and Dean Academics, Mr. Sarvesh Bhargava had a meeting with Dr. Amar Singh Manjhi (BMO, Govt. hospital, Noorabaad, Morena). In this meeting Prof. Bhargava urged Dr. Amar Singh Manjhi for arranging a vaccination drive for civilians residing near ShriRam college campus. Dr. Amar Singh Manjhi praised ShriRam college for this initiative and approved the vaccination drive in the month of August.

Webinar: Job Interview Etiquette

Candidate, during any interview, is expected to have a good blend of technical knowledge and soft skills. Variety of questions are asked in the interview process and the rate and extent to which discussion should be given decides if the candidate would be selected or not.

To make the students understand this, a webinar on Job interview etiquette was organised by SRGOC in which Dr. Sudha Mishra was the keynote speaker.

"Interviewing is a lot like talking, but you have to guide the conversation. You have to know what you want and go about getting it." said Dr Sudha Mishra.

Campus Placement

Avdesh Dubey, student of B. Pharm (2021 batch) has successfully secured position in Akums drugs and Pharmaceuticals limited, Haridwar. "The graduation journey at ShriRam Group was amazing! Thank you, my

alma mater, ShriRam Group of Colleges for being the part of this momentous day in my life!" said Avdesh Dubey while sharing his success story with Corporate Relationship Cell (CRC), SRGOC.

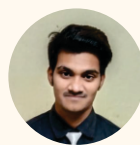

Gaurav Jha, a student of B. Pharm (2021 batch) has been able to secure his seat in Obsurge biotech limited as territory manager. In conversation with CRC, SRGOC Gaurav said

"Because my teachers believed in me, I never gave up now I am flying towards my dreams" Thanks SRGOC and its placement cell for making my dreams come true!"

Nishant Bhadouriya, a B. Pharm graduate, 2021 batch has successfully secured position in Piramal Pharmaceuticals limited. Nishant thanked management, entire

SRGOC team and CRC team for his success.

Aman Joshi, B. Pharm graduate 2021 batch has cracked interview of Troikaa Pharmaceuticals limited. He will be managing marketing in Gwalior region.

"Thank you SRCP & SRGOC for being my bridge to my dreams come true and for my success" quoted Aman on his success.

Highlights

Webinar: Job Interview Etiquette

SRGOC was privileged to provide the right platform to the debaters and thinktanks to discuss and debate upon prevailing World Issues with International Exposure and Extensive Networking in MUN in association with AIESEC, Indore. Model United Nations,

also known as Model UN or MUN, is an extra-curricular activity in which students typically roleplay delegates to the United Nations and simulate UN committees. This activity takes place at MUN conferences. At the end of most conferences, outstanding delegates in each committee were recognized and given an award certificate; the Best Delegate in each committee, however, receives a gavel.

Students' Corner

We should conserve resources on earth because this ensures long lasting good of mankind!

Aman Singhal, B. Pharm, 1st year, SRCP, Banmore expressed his concern on unjustified utilization of natural resources. He said- "Nature has provided us numerous gifts such as air, water mineral plants and animals, in their absence is it possible to imagine life?"

According to Mr. Singhal, it is important to raise awareness among people all over the world to understand the importance of saving resources, recycle it, preserve it and also understand the consequences of damaging it

He also suggested that sustainable development must be practiced at individual level then only progress and preservation can be concurrently realized. **"Progress is impossible without change and those who can't change their mind can't change anything"**, he additionally said.

At last, he urged everyone with a statement "Let us come together and make an effort in conserving nature, it will not only benefit our present generation but also for future Generations."

He also wished everyone a very happy World Nature conservation Day.

"Try not to become a man of success. Rather become a man of value."

Professor's Column

Smriti Singhatiya

Asst Professor, Computer Science Dept.

Artificial Intelligence: The future Technology

Artificial Intelligence (AI) is the future. It is shaping many industries even when it's new compared to other technologies. AI is also growing as scientists and engineers are doing research at a rapid pace. Companies such as Google, Facebook, Microsoft, and others are also investing heavily in AI research, and the results are quite evident. The release of self-driving cars is just an example of rapid AI growth.

To keep up with the recent changes and find useful information, it is always a good idea to follow the best Artificial Intelligence blogs. After reading this article, you will be able to follow AI closely by covering all the different sub-topics related to AI.

The field of AI is becoming more and more mainstream every year. With this growth come many libraries and tools to abstract away some of the most difficult concepts to implement for people starting out. Your Mind is a Suggestion Engine

Progress In Life Is All About Reinventing Yourself

Vishakha Agrawal,

a student of B.com 2nd year of SRIPS

Before thinking about fixing the world, we must first try a little for self-improvement. Many people walk through life without really considering who they are and fewer still ask themselves if that is who they want to be. In my experience this is because most folks can't see how to go about changing themselves and some even think that this is somehow a betrayal of their essence. To reinvent yourself you need three things. A vision of who you want to be. You need to know how to make a change in yourself and finally you need to have the courage to do it. Your vision can be reached through many paths. Look at those things that you take pride in about yourself and contrast them with those things that embarrass you. This should start to indicate where your soul is trying to head. Next flesh out the ultimate form that you would take if you followed this path. And now you have your vision. But don't think this will remain constant throughout your life. As you change, grow and learn you will want to alter your vision. This is a good and normal thing, so fear not. The method that I have found to change myself is simplicity itself. Become an actor. Take one part of yourself at a time and start acting as if you had already achieved that modification. It will feel awkward

and false at first but the more you practice it, including the feelings behind the actions, the more it will become natural to you. Eventually you will be acting correctly without even thinking about it and your motivation will become a part of who you are. Then you are ready to tackle the next part of yourself that needs improvement. You will need courage to do this. Remember, all of your friends and family are expecting you to stay the same. Whether you know it or not you are partly who you are because of a desire to meet these expectations. It is therefore natural for you to fear the confusion and perhaps rejection of those nearest and dearest to you

Vocab Box-

Doom-scrolling

Doom-scrolling is the act of spending an excessive amount of screen time devoted to the absorption of negative news.

Name of the Company	CTC Offered
